

ISOPE-2017 San Francisco
Geotechnical/ Geoenvironmental Engineering Sessions
First Call For Papers

We would like to invite the colleagues, who are interested in any areas in geotechnical/ geoenvironmental engineering, to submit high quality original papers to the ISOPE2017 geotechnical engineering sessions. The growing focus on oil/gas exploration and production activities in harsh environments including arctic, deepwater and seismically active regions has raised the need for deep understanding of geotechnical challenges as well innovative solutions to these challenges.

Special ISOPE room rate at 5-star hotel starts from \$169 /night.

Suggested Topics

Offshore Foundation; Suction Piles	Computational Geomechanics & Analysis
Offshore Site Investigation; Soil Properties	Petroleum Geomechanics
Geohazards(Earthquake; Tsunami; Slide etc)	Arctic Geotechnical Challenges
Testing and Instrumentation	Physical/Centrifuge Modeling
Scour Assessment	Soil/Structure; Soil/Pipe Interaction
Ground Improvement	Case Study

Deadlines

Abstract:	20 October 2016
Manuscript for Review:	20 January 2016
Final Manuscript:	24 March 2016

Please email abstracts to any organizer below or submit online at:

<http://www.isopec.org/call4papers/2017/HowToSubmitAbstractOnline.htm>,

Abstracts MUST include the contact author's full postal address, telephone and fax numbers, and e-mail address to facilitate communications. Update on ISOPE-2016 will be posted at

<http://www.isopec.org/conferences/conferences.htm>

All papers accepted following peer-review will be published in ISOPE conference proceedings indexed by Indexed to Scientific and Technical Proceedings (ISTP/ISI), Web of Science, Engineering Index (EI), Scopus and more. High-quality papers may be selected for further review for publication on The International Journal of Offshore and Polar Engineering, indexed by SCI-E, Web of Science.
