The Proceedings of
The Third (1999) ISOPE
OCEAN MINING SYMPOSIUM
Goa, India
November 1999

ENVIRONMENT, EXPLORATION AND SURVEY,
MINING SYSTEMS AND TECHNOLOGY, AND MATERILAS AND PROCESSING

How to Use This Table of Contents

Click on a blue paper title you would like to view.

This contents was created by scanning the papers from the conference proceedings.

Edited by:
Jin S. Chung, International Society of Offshore and Polar Engineers, Cupertino, California, USA
Rahul Sharma, National Institute of Oceanography, Goa, India

presented at:
The Third (1999) ISOPE Ocean Mining Symposium, Goa, India, November 8-11, 1999

organized by:
International Society of Offshore and Polar Engineers
National Institute of Oceanography, Goa, India

Cosponsored by:
International Society of Offshore and Polar Engineers (ISOPE)
Department of Ocean Development, Government of India
National Institute of Oceanography, India
Cooperated by:
International Society of Offshore and Polar Engineers (ISOPE)
U.S. National Science Foundation (NSF)
Mining and Materials Processing Institute of Japan (MMIJ)
Korea Association for Deep Ocean Minerals Development (KADOM)
Korea Committee for Ocean Resources Engineering (KCORE)
National Institute of Oceanography (NIO, India)
Interoceanmetal Joint Organization (IOM, Poland)
Ifremer (France)
Kansai Society of Naval Architects of Japan (KSNAJ)
China Ocean Mineral Resources R&D Association (COMRA)

The publisher and the editors of its publications assume no responsibility for the statements or opinions expressed in papers or presentations by the contributors to this symposium or proceedings.

CONTENTS

DEEP-OCEAN MINING - General and Review

Indian Poly metallic Nodule Program
A.E. Muthunayagam and S.K. Das ................................................................. 1

Opportunities for Offshore Minerals Exploration in Indian Ocean
E. Desa ............................................................................................................ 6

Deep-Ocean Mining issues and Ocean Mining Working Group (OMWG)
Jin S. Chung .................................................................................................. 14

MINING TECHNOLOGY AND SYSTEMS

Non-Linear Dynamic Response of Ocean Mining Pipe
P.R. Babu and Suhail Ahmad ......................................................................... 21

Effects of Internal Flow on Dynamics of Deep Seawater Risers
Koji Otsuka, Akiyoshi Bando and Yoshiho Ikeda .......................................... 30

Kazuyuki Ouchi and Hiroyuki Nakahara ......................................................... 36

An Experimental Study on the Flow Characteristics of Solid-Liquid Two Phase Mixture in a Vertical Tube
Chi Ho Yoon, In Kee Kim, Kwang Soo Kwon, Seok Ki Kwon, Jung Seock Kang, Ou Kwang Kwon and Chi Won Seo ................................................................. 43

Deepsea Core Boring by BMS in Northern Mariana Area
Shigeru Sarata and Katsutoji Matsumoto ...................................................... 49

Tracing Collector Passes and Preliminary Analysis of Collector Operation
Tetsuo Yamazaki, E. Kuboki and H. Yoshida .................................................. 55

Track-Keeping Control of Seafloor Miner by Successive Learning of Unknown Velocity and Soil Properties
Jin S. Chung .................................................................................................. 63

Experimental Study on Hydraulic Performance of Hybrid Pickup Device of Manganese Nodule Collector
Sup Hong, Jong-Su Choi, Jin-Ha Kim and Chan-Kyu Yang ................................ 69
## Underwater Sand Mining System for Shallow Waters

## EXPLORATION AND SURVEY

**The First Phase of the IOM Survey Program According to Plan of Work for Exploration in the Area**
K. Kotlinski and V. Stoyanova

**Mode of Occurrence of Iron-Manganese Crusts on Inactive Seamounts in the Northwestern Pacific Back-Arc Setting**
Akira Usui, Qsumu Ishizuka and Makoto Yuasa

**Multibeam Echosounder Pseudo Sidescan Images as a Tool for Manganese Nodule Exploration**
V.N. Kodagali and B. Chakmborty

**The Implementation Agreement and Indian Interests**
B. Vijay Kumar

## ENVIRONMENT

**Summary of the Japanese Environmental Study for Deep-sea Mining**
Satoru Okubo

**Indian Deepsea Environment Experiment (INDEX): Achievements and Applications**
Rahul Sharma

**Vertical Distribution of Meiobenthos in Relation to Geotechnical Properties of Deep-Sea Sediment in the IOM Pioneer Area (Clarion-Clipperton Fracture Zone, NE Pacific)**
Teresa Radziejewska and Igor Modlitba

**Sedimentological Impacts of INDEX Experiment**
A.B. Valsangkar, N.V. Ambre and Maria Rodrigues

**Effect of Benthic Disturbance on Geotechnical Characteristics of Sediments from Nodule Mining Area in the Central Indian Basin**
N.H. Khadge

**Baseline Studies and Evaluation of Effects of Surface Discharge of Deepsea Mining -INDEX Area**
S.N. de Souza and S.D. Sardessai

**Environmental Impact of Suspended Tailings Discharge During Mining Nodules**
Jianxin Xia and Ning Yang

**Large-Scale Impact of Manganese Nodule Mining in the Pacific Numerical Simulations of the Dispersion of Tailings**
S. Rolinski

**Environmental Study on the Deepsea Mining of Manganese Nodules in the Northeastern Tropical Pacific: Modeling the Sediment-Laden Negative Buoyant Flow**
T. Doi, K. Nakata, M. Kubota and S. Aoki

**Inter-comparison Between Aanderaa and Potok Current Meters Deployed During INDEX Programme**
A.A. Fernandes, S. Pednekar and P. Vethamony

**Holothurians as Indicators for Recolonisation Processes in Environmental Assessments**
Hartmut Bluhm

**Biological Results of JET Project: An Overview**
Yoshihisa Shirayama

**Immediate Response of Mei and Macrobenthos to Disturbance Caused by Benthic Disturber**
B.S. Ingole, Z.A. Ansari, S.G.P. Matondkar and N. Rodrigues

**Validation of EIA Sampling Methods — Bacterial and Biochemical Analyses**
Sheelu G., P.A. Loka Bharati, Shanta Nair, C. Raghukumar and C. Mohandass
Surface Meteorological Conditions at Benthic Disturbance Site - INDEX Area During Austral Winter 1997
A. Suryanarayana, V.S.N. Murty, V. Ramesh Babu and B.S. Beena ................................................... 203

Watermass Structure at Benthic Disturbance Site (INDEX Area) and Anticipated Mining Efffects On Hydrophyscal Properties
V.Ratnesh Baku, V.S.N. Murty, A. Suryanarayana and B.S. Beena ................................. 208

Current Structure and Kinetic Energy of The Abyssal Waters in the Central Indian Basin
V.S.N Murty, V. Ramesh Babu, A. Suryanarayana and B.S, Beena ................................. 216

PROCESSING TECHNOLOGY

The Smelting-Rusting-Solvent Extracting Process to Recover Valuable Metals from Polymetallic Nodules
Zhong Xiang, He Zequan, Shen Yujun,Mao Yongjun, Qi Shuguang and Li Xianbai ........................................ 227

An Evaluation of Mineral Processing Experimental Data for Cobalt-Rich Crust Development
Se Han Park, Sohei Shimada and Yasuhiro Okano ................................................................. 232

Processing of Polymetallic Sea Nodules: An Overview
Premchand and R.K, Jana ................................................................................................................ 237

Manganese Recovery from Leach Liquors / Residues Generated during Hydro metallurgical Processing of Manganese Nodules
K. Sanjay, T, Subbaiah, S, Anand and R.P. Das ................................................................. 246

Studies on Removal of Impurities from Ocean Nodules Leach Liquor by Solvent Extraction

Simultaneous Spectrophotometric Estimation of Iron, Copper, Cobalt and Nickel in Ocean Nodule Leach Liquor

Recovery of Nickel and Cobalt Values from Various Sources
I.G. Sharma, A.C. Bidaye, P.R. Menon, P.P. Shukla and A.K. Suri ..................................................... 268

VERBAL PRESENTATIONS

Mining System with Free Swimming Pick-Up Device and Dose Test of Environment Assessment
Ning Yang
