The Proceedings of
The Sixth (2005) ISOPE
OCEAN MINING SYMPOSIUM

Changsha, Hunan, China
2005

Exploration and Survey, Environment, Mining Systems and Technology,
Processing Technology, Deep-Ocean Water Upwelling, and Gas Hydrates

ISBN 1-880653-65−6
http://www.isope.org/

How to Use This Table of Contents
Scroll down or use the bookmarks in the left-side frame to move to a new location in this index.
Click on a blue paper title you like to view.
To return to this index after viewing a paper, click on PREVIOUS MENU bookmark in the left-side frame.

This CD-ROM was created from the author-made PDF files. View quality of the text and graphics and
the ease of readability depend largely on the quality and/or consistency of the PDF-making procedure
the authors used.

Edited by:

Jin S. Chung, ISOPE, Cupertino, California, USA
Shaojun Liu, Central South University, Changsha, Hunan, China

Presented at:
The Sixth (2005) ISOPE Ocean Mining Symposium held in Changsha, Hunan, China, October 9-13, 2005

Organized by:
International Organizing Committee, International Society of Offshore and Polar Engineers

Cosponsored by:
International Society of Offshore and Polar Engineers (ISOPE)
China Ocean Mineral Resources R. & D. Association (COMRA)
Central South University (CSU)
The publisher and the editors of its publications assume no responsibility for the statements or opinions expressed in papers or presentations by the contributors to this symposium or symposium proceedings.

International Society of Offshore and Polar Engineers (ISOPE)
P.O. Box 189, Cupertino, California 95015-0189 U.S.A.

CONTENT

Foreword .................................................................................................................................... iii
Acknowledgement ..................................................................................................................... iv
Partial List of Reviewers ........................................................................................................ vi
Copyright, Announcements and Publication Order .......... ii, v, vii, viii, ix, x, xi, xii, xiii

OPENING SESSION

Deep-ocean Mining Technology II: Developments II
Jin S. Chung .....................................................................................................................................1

Recent Advances of Ocean Nutrient Enhancer “TAKUMI” Project
Kazuyuki Ouchi, Koji Otsuka and Hisaaki Omura ........................................................................7

DEEP-OCEAN WATER UPWELLING

Measured Results of Oceanographic Observation by using “TAKUMI”
--- About Wave Condition
Katsuya Maeda, Yutaka Ohkawa and Kenkichi Tamura ...................................................................13

EXPLORATION AND SURVEY

Innovation Technology and Equipments for Deep Sea Exploration and Survey
Mikhail Arkadievich Voronov, Gennady Ivanovich Ivanov and Viktor A. Ivanov ..........................19

Factors Controlling the Grade and Abundance of Ferromanganese Crusts:
The Northwestern Pacific Ocean as Case Study
Akira Usui ....................................................................................................................................23
A Novel solid Ag/Ag2S Electrode for In-situ Sensors and Its Application at Biological Cluster near TICA-vent, 9°50’N EPR
Ying Ye, Xia Huang, Canjun Yang, Ying Chen and Zhifei Chen .................................................................27

Optimal Design of A Novel Hydrothermal Fluid Sampler
Wei Liu, Canjun Yang, Guoquan Shen and Ying Chen .................................................................31

Multi-Channel Data logger of In-situ Chemical Sensors for Seafloor Hydrothermal Vents
Can-Jun Yang, Ying Chen, Ying Ye, Jian-Wei Cao and Lin-Yi Gu .........................................................35

Electrical Prospecting of Deep-Sea Sulfide Deposits in the Mid-Atlantic Region (10°N. - 40°N.)
S.I. Andreev, E.D. Lisitshin, L.F. Moskovskaja and S.I. Petukhov .....................................................39

Geotechnical Properties of Deep-sea Sediments and the In-situ Measurement Techniques
T. Yamazaki, T. Komine and T. Kawakami ..........................................................................................48

Research on Deep-sea Pressure Tight Multiple Coring Technique
Liang Zhu, Linyi Gu, Huawei Qin, Shilun Li, Ying Chen and Guanghai Wu ........................................56

Study of Compressive Strength Prediction of Cobalt-crust Substrate in Deep-sea Based on Distribution Characteristics and Frequency Design
Yingyong Bu, Changjun Qiu and Haiming Zhao ................................................................................60

MINING SYSTEMS AND TECHNOLOGY I: General

Economic Validation Analyses of Japan's Nodule, Crust, and Kuroko-type SMS Mining in 2004
T. Yamazaki and S.-H. Park ....................................................................................................................65

Design and Simulation Study on a Virtual Prototype of an Active Heave Compensation System for Deep-ocean Mining
Xiaoyan Tang, Shaojun Liu and Kai Huang ..........................................................................................71

Research on the Two Lines Based Power Line Carrier Frequency Communication Network in Ocean
Bo Jin, Haikuo Shen, Ying Chen and Zhenxia Xu ...............................................................................76
MINING SYSTEMS & TECHNOLOGY II: Pipe Dynamics and Flows

Dynamic Analysis on 3-D Motions of Deep-ocean Mining Pipe System for 1000-m Sea Trial
Gang Wang and Shaojun Liu .................................................................81

Three-Dimensional DEM Model for Deep-Ocean Mining Pipe System
Yan Li and Shaojun Liu ...........................................................................88

Dynamic Response of Deep-Ocean Mining Vertical Pipe
Hongyun Yu and Shaojun Liu .................................................................94

Flow Analysis of Solid-liquid Mixture in a Lifting Pump
Chi-Ho Yoon, Yong-Chan Park, Dong-Kil Lee, Seok-Ki Kwon and Joong-Nam Lee .............101

Concentration Characteristics of Large-Size Particles in Vertical Pipes for Hydraulic Lifting
Long Jiang, Pengcheng Li, Long Tian and Wenliang Han .............................................106

Simulation for the Motion of Polymetallic Nodules in Hydraulic Hoist for Deep Sea Mining
Pengcheng Li, Long Jiang, Long Tian and Wenliang Han .............................................110

Experiment Study on Critical Velocity in Vertical Pipes for Hydraulic Lifting
Long Tian, Pengcheng Li, Long Jiang and Wenliang Han .............................................115

Design of Hydrocyclone for Solid Separation
Yong-Chan Park, Chi-Ho Yoon, Dong-Kil Lee and Seok-Ki Kwon ....................................119

MINING SYSTEMS & TECHNOLOGY IV: Seafloor Miner

Research of China’s Pilot-miner in the Mining System of Poly-metallic nodule
Li Li and Jue Zhong ................................................................................124

Coupled Dynamic Analysis of Underwater Tracked Vehicle and Long Flexible Pipe
Sup Hong and Hyung-Woo Kim .................................................................132

Dynamic Analysis of Underwater Tracked Vehicle on Extremely Soft Soil by Using Euler Parameters
Hyung-Woo Kim, Sup Hong, JongSu Choi and Tae-kyeong Yeu ........................................141

Determination of Soil Parameters Based on the Operational Data of a Ground Operated Tracked Vehicle
Henning Grebe and Enno Sebastian Schulte ......................................................149
Metamodel-based Multidisciplinary Design Optimization of Ocean-Mining Vehicle System
Jae Jun Jung, Jung Hun Yoo, Tae Hee Lee, Sup Hong, Hyung Woo Kim and Jong-Su Choi.................................................................157

Design Evaluation of a Deepsea Manganese Nodule Miner Based on Axiomatic Design
Jong-Su Choi, Sup Hong, Hyung-Woo Kim, Tae-kyeong You and Tae Hee Lee..............................163

Path Tracking Control of Tracked Vehicle on Soft Cohesive Soil
Tae-Kyeong You, Sup Hong, Hyung-Woo Kim and Jong-Su Choi.........................................................168

MINING SYSTEMS & TECHNOLOGY IV: Crust Mining and Miner Control

Development of an Extended Kalman Filter Algorithm for the Localization of Underwater Mining Vehicles
Moon-Cheol Won, Hyuk-Sang Cha and Seung-Chul Shin .................................................................175

Fuzzy and Predictive Control On the Deep-Sea Vehicle
Suiping Wang, Weihua Gui, Tao Zhang and Changbin Wu .................................................................181

Research of Six-legged Walking Robot For Use in Ocean Crust Mining
Guiying Zeng and Shaojun Liu ........................................................................................................187

A Cutting Model for Drum Cutter for Deep Ocean Cobalt Crust
Dexin Ding, Zhijun Zhang and Zhengwei Xiong ...............................................................................191

The Study on Distribution Law of Crushing Graininess for Roller-mining Head Cutting Cobalt Crust
Yimin Xia, Yingyong Bu, Haiming Zhao and Xuanyun Qin.................................................................195

GAS HYDRATES

Compressive Strength and Density of Methane Hydrate
Yasuyuki Nabeshima, Yusuke Takai and Takeshi Komai .................................................................199

Dissociation Rate of Methane Hydrates Occupied in Pore Space of Marine Sediments
T. Komai, Y. Sakamoto, T. Kawamura and Y. Yamamoto .................................................................203

Dissociation Experiment of Hydrate Core Sample Using Thermodynamic Inhibitors-Part 2.
T. Kawamura, Y. Yamamoto, M. Ohtake, Y. Sakamoto, H. Haneda and T. Komai.................................208
A Novel Pressure Piston Corer for Seafloor Sediments in Gas Hydrate Areas
Shi-lun Li, Yi Cheng, Hua-wei Qin, Lin-yi Gu, Ying Ye, Min-xiu Qiu, Nengyou Wu and Jun Tao

PROCESSING TECHNOLOGY

Study on Ammonia Leaching of Ocean Polymetallic Nodules Using Carbon Monoxide as a Reducing Agent
Jiang Kaixi, Jiang Xunxiong, Wang Shengdong, Li Zhenyou, Fan Yanqing, Zhao Lei and Wang Haibei

Electroleaching of Fe-Ni-Cu-Co alloy
Min-Seuk Kim, Kyung-Ho Park and Hong-In Kim

Studies on the Separation of Cobalt and Nickel in Solution from Hydrometallurgical Processing of Ocean Cobalt-rich Crust
Yanqing Fan, Xunxiong Jiang, Shengdong Wang and Kaixi Jiang

Pulsed Power Disintegration and Breaking-Up Technologies for Resistant Gold-Containing Ores and Beneficiation Products: Theory and Technological Results
V. A. Chanturiya and I. J. Bunin

ENVIRONMENT

Experiment Study on Crushing and Pulverization of Nodules During Pump Lifting
Weisheng Zou and Jiazhen Huang

Design on the Concentration and Pressure Tight Sampler of Suspended Particulate Matter and Plankton
Haikuo Shen, Bo Jin, Ying Chen and Zhonghua Huang

Detoxification of Cadmium from Industrial Effluents Using Solid Waste Generated After sea Nodule Processing
Archana Agrawal and K K Sahu

ADDITIONAL PAPERS

Measurement of Velocity and Concentration of Nodules in Vertical Hydrotransport
Jerzy Sobota, Stanislaw Boczarski, Leszek Petryka and Marcin Zych
